EXPERIENCE SUMMARY

Data Scientist with 7+ years of experience building scalable machine learning and predictive analytics solutions in large-scale production environments. Skilled in fraud detection, anomaly detection, statistical analysis, KPI reporting, and SQL-driven analytics frameworks. Proven impact delivering 45–65% fraud reduction and \$1M+ monthly savings through ML optimization, experimentation, and distributed data systems using Python, Spark, AWS, and cloud-native monitoring tools.

SKILLS

- **Machine Learning & AI:** Supervised & Unsupervised Learning, Predictive Analytics, Fraud Detection, Anomaly Detection, Risk Analytics, Deep Learning, Generative AI, LLMs, Statistical Analysis, Feature Engineering, Behavioral Analytics
- **ML Engineering & MLOps:** ML Pipelines, Model Deployment, Model Monitoring, CI/CD Pipelines, Distributed ML Systems, Experimentation, A/B Testing
- **Big Data & Data Engineering:** Apache Spark, Hadoop, Databricks, Apache NiFi, Apache Airflow, ETL Pipelines, Distributed Data Processing, Data Validation
- **Programming Languages & Querying:** Python, SQL, Hive
- **ML Frameworks:** scikit-learn, XGBoost, H2O.ai, PyTorch, Spark MLlib
- **Cloud & Infrastructure:** AWS, Google Cloud, Snowflake
- **Monitoring & Observability:** AWS Kibana / OpenSearch, Splunk, Grafana, Real-time Monitoring, JSON Log Analytics
- **BI & Visualization:** Tableau, Power BI, KPI Reporting
- **Development & Collaboration:** Git, Version Control, Cross-functional Collaboration, Root Cause Analysis

EXPERIENCE

Data Scientist | Randstad Digital LLC (Verizon Wireless) | Irving, TX

November 2019 - Present

- Built supervised and unsupervised ML models using Python and Apache Spark for payment and authentication fraud detection, reducing unauthorized transactions by 45% and fraudulent registrations by 65%.
- Designed end-to-end ML and ETL pipelines using Apache NiFi, Oracle SQL, Apache Airflow, AWS, and CI/CD workflows for automated ingestion, orchestration, deployment, and monitoring of Spark jobs.
- Architected anomaly detection models and rule-based fraud prevention systems, generating \$1M+ monthly savings through threshold optimization, experimentation, risk scoring, and production tuning across fraud detection workflows.
- Built LLM-powered workflows for operational analytics and investigation support, applying prompt engineering and AI-assisted summarization to improve reporting efficiency and stakeholder visibility.
- Owned production monitoring, dashboards, alerts, and operational analytics using OpenSearch, Tableau, and Grafana, reducing false positives by 47% while improving real-time debugging and observability.
- Led large-scale data analysis and operational reporting during migration from on-premises systems to AWS, improving data validation, forecasting visibility, and JSON logging observability across distributed systems.
- Managed stakeholder communication, executive reporting, and escalation support during heightened fraud monitoring periods while mentoring new team members through debugging guidance and analytical support.

Software Developer | Wipro Limited (Capital One) | Richmond, VA

February 2019 - October 2019

- Decommissioned Hadoop jobs and migrated data workflows to AWS S3 as part of enterprise cloud modernization initiatives.
- Managed operational reporting for loan operations, escrow, agency servicing, and core operations teams using SQL-driven analytics workflows.
- Forecasted operational trends and analyzed business patterns to support strategic decision-making and reporting initiatives.
- Compiled business intelligence insights into reports and presentations supporting data-informed operational decisions.

PUBLICATIONS

- Tri-Strategy Remora Optimization Algorithm based SVM for Customer Churn Prediction (2024)

CERTIFICATIONS

- AWS Certified Cloud Practitioner
- IBM Certified Data Science Professional

EDUCATION

- Master of Science (M.S.) in Computer Science | UNIVERSITY OF TEXAS AT ARLINGTON | TX, USA
- Bachelor of Science (B.S.) in Computer Science | RAJIV GANDHI TECHNICAL UNIVERSITY | MP, India
